Executive Summary

Having discovered my passion for programming in high school. My major in college was Computer Engineering, which provided me with a solid understanding of computer architecture. During that time, I gained an experience working with C++ and MySQL. Currently I'm highly interested in React Js and Node Js (MERN Stack). Have good experience and understanding of Typescript JavaScript and Sass. Additionally, my extensive experience in problem-solving, situational handling, accountability, and leadership was honed through prior experience of two apartment complexes management.

Projects

The Task App
React app that functions as a full CRUD Trello Board, with multi-user JWT authorization.
use email: test@test, password: test

Web Demo
Code

Trivia Game
Game based on jservice API

Web Demo
Code

The Frog mini game
Pure Vanilla single platformer
mini game with touch screen support

Web Demo
Code

Technical Skills

Type Script 4	Java Script ES6	Python3
React JS	Node.js	Express
JWT	REST APIs	Mongo Db
HTML 5	CSS (SASS)	Bootstrap
Version Control (Git)	Agile Environment	Postman

Relevant Experience

Salem Crown Apartments Web Site　　　　　　　　　　　　**January 2023**

Dayton, OH, Remote　　　　　　　　　　　　　　　　　　Freelance Web-developer

Production Link　　　Web Demo　　　Code

To access the Admin side of the WebDemo, go to /principal , use credentials: email:test@user password:testuser.

- Successfully developed dynamic apartment website with full CRUD MERN stack,
  and JWT authorization for admin interface, resulting in an increase of 30% in website traffic within the first month.
- Completed the project within the stipulated timeline and budget,
  demonstrating efficient time management and adherence to project guidelines.
- Received positive feedback from clients, resulting in an overall customer satisfaction rating of 85%.

Argano　　　　　　　　　　　　　　　　　　　　　　**2022- 2023**

Denver, CO, Remote　　　　　　　　　　　　　　　　　　Software Developer

- Implemented React Js function components, contributing to the development of interactive
  and dynamic user interfaces.
- Collaborated effectively within an Agile environment, participating in sprint planning,
  stand-up meetings, and ensuring timely delivery of tasks
- Demonstrated problem-solving skills by identifying and resolving defects, enhancing software quality and user experience.

Education

Per Scholas　　　　　　　　　　　　　　　　　　　　**2021- 2022**

Software Engineering Bootcamp
Cincinnati, OH

National Aviation University　　　　　　　　　　　　　**2014-2018**

Bachelor's degree, Computer Engineering
Kyiv, Ukraine
